Dear Special Needs Doberman,

In January of this year Refurbished Pets of Southern Michigan (RPSM) was called to assist with an unwanted male Doberman. The arrangements were in process to move the male to safety when much to the surprise and panic of the owner, the female Doberman in the home started delivering puppies. One day later RPSM moved mom, dad and nine pups into rescue. Eight puppies were healthy. Camellia, a small black/tan female needed heart surgery in order to survive. RPSM is proud of the fact that all 11 dogs are now in their forever homes.

Dad Koby was the first to be adopted. He now has a sister named Martini, another RPSM rescue dog. Following dad three of the boys moved to their new homes, Reese, Gordon and Alex and all now reside in Michigan. Sebastian was the next pup to be adopted. He is growing large in the state of Indiana. Tasha will soon be heading to her new family in Kentucky. Delana has been adopted and heading south to Indiana. Beatrice and Camellia will remain Michiganders. Sheldon will be paroled from prison soon and moving to Indiana, with another RPSM previous adopter. Mom Kailey is waiting in foster for her new family. With the help of SND all dogs are healthy and happy.

There are no words to adequately express our gratitude for SND's generous gift to help fund little Camellia's heart surgery. Thank you from all of us at RPSM, but the true thanks is to know that Camellia is running, jumping and playing like a normal puppy now! Without SND, Camellia would not have had her life saving surgery as quickly as she did.

SND is awesome and we will always remember your gift. We will update the café from time to time with Camellia's progress as we hear from her new family. Thanks to SND another puppy will grow up to be a beautiful Doberman girl and have a great life.

Thank you,
The Volunteers of Refurbished Pets of Southern Michigan
